

CEP PRO

SUSTAINABLE PROTEINS

CEP PRO is a completely biosecure high quality feed additive.

Farmed polychaete (*Nereis virens* & *Nereis diversicolor*) are processed, with the addition of special ingredients, to produce CEP liquid.

CEP PRO offers a highly flexible opportunity for the end user to tailor a feed to a specific standard. It should be further processed with locally obtained ingredients in order to produce the finished feed.

With its unique nutrient profile CEP PRO will give you an environmentally friendly feed at a reduced cost. CEP PRO provides the ultimate seafood product with a delicious taste of the sea.

Analysis

NUTRIENT	VALUE	NUTRIENT	VALUE
Moisture (loss on drying) (%)	34.1	Phosphorus (g/100 g)	0.06
Protein (%)	20.7	Threonine (g/100 g)	0.11
Fat (%)	0.7	Methionine (g/100 g)	3.22
Ash (%)	7.6	Lysine (g/100 g)	10.8
Acidity	3.50		

Ingredients

Polychaete (*Nereis virens* and *Nereis diversicolor*) based functional ingredients with partially bound amino acid matrix. Brown liquid. Colour may vary, but this has no effect on performance.

Instructions for use

CEP Pro should be added preconditioned as a feed ingredient for *Penaeus monodon* and *Litopenaeus vannamei*. This product should be used throughout the life cycle of animals in the grow-out pond.

Shelf life

As indicated by the expiry date, or within six months after opening.

Storage conditions

Store in ambient, dry conditions. Maximum storage temperature for recommended shelf life is 20°C.

Packaging

1,000 kg IBCs.
