

Squid PRO

ILEX ILLECEBROSUS

FEED FOR SHRIMP

Squid PRO is an excellent maturation feed, full of high value nutrient and fatty acids. Squid PRO is used for maturation directly or can be mixed with other shrimp broodstock feeds. Squid PRO is excellent in combination with Semi Moist PRO.

It has been harvested from regulated fisheries in the North Atlantic to ensure biosecurity and provide a predictable supply. It is made with pure giant squid (Ilex illecebrosus) and every step has been taken in order to preserve the freshness, palatability and digestibility.

Analysis

NUTRIENT	VALUE	NUTRIENT	VALUE
Moisture (%)	78	Ash (%)	2
Protein (%)	17	Calories (/100g)	89.1
Fat (%)	2.5		

Ingredients

100% squid (Ilex illecebrosus).

Storage conditions

Store at -18°C.

Instructions for use

Do not re-freeze after defrosting.
Animal feed – not for human consumption.

Packaging

27 lbs (12.2 kg) block, frozen.

Shelf life

2 years.

Country of origin

USA.

Squid PRO

LOLIGO OPALESCENS

FEED FOR SHRIMP

Squid PRO is an excellent maturation feed, full of high value nutrient and fatty acids. Squid PRO is used for maturation directly or can be mixed with other shrimp broodstock feeds. Squid PRO is excellent in combination with Semi Moist PRO.

It has been harvested from regulated fisheries off the Pacific West Coast to ensure biosecurity and provide a predictable supply. It is made with pure giant squid (*Loligo opalescens*) and every step has been taken in order to preserve the freshness, palatability and digestibility.

Analysis
